# PREAMBLE

---

**We hold these truths to be self-evident: that the social contract between the Australian Government and its People is broken.**

We are a nation rich in resources, yet our people are poor. We are a nation of pioneers, yet we are ruled by bureaucrats. The Government wastes billions on “Future Funds” and consultants while families sleep in their cars.

The **Australia Union Restoration Party (AURP)** exists to unite the working class, the farmers, and the forgotten families against an out-of-touch elite. We stand for **Individual Liberty, National Sovereignty, and Common Sense.**

We reject the division of our people by race, gender, or class. We are one people, under one flag, bound by one law.

# Article 1 THE BILL OF RIGHTS & GOVERNANCE

---

## 1.1 Fundamental Liberties

### 1.1.1 The Right to Self-Defence (The Castle Doctrine)

The right to defend one's life and family is absolute. We shall legislate the "Castle Doctrine," ensuring that no Australian can be prosecuted for using reasonable force to defend their home against an intruder.

### 1.1.2 Absolute Property Rights

Government seizure of private property for commercial or renewable energy projects without the owner's voluntary consent is hereby prohibited.

### 1.1.3 Freedom of Speech & Public Safety

We support a "First Amendment" style protection for political speech. However, we distinguish between free speech and **criminal harassment**.

- **Zero Tolerance for Hate Crimes:** We will deploy increased **Police Presence** and **CCTV Surveillance** to detect and stop Antisemitism, racial hatred, and targeted intimidation.
- **Action, Not Words:** Punishments apply to *actual offences* (harassment, intimidation, violence), not just offensive opinions.
- **No Bail:** Offenders charged with hate-motivated violence or intimidation shall be **refused bail** and face immediate incarceration.

### 1.1.4 Medical Freedom

Bodily autonomy is non-negotiable. We oppose all government mandates regarding medical procedures.

### 1.1.5 The Right to Cash

We oppose the creation of any Central Bank Digital Currency (CBDC) that allows government surveillance of transactions. Physical cash shall remain legal tender for all debts public and private.

## 1.2 Emergency Powers & Assessment

### POLICY SPOTLIGHT: EMERGENCY MEASURES

Future state of emergency declarations shall not be judged solely on health metrics. They must be assessed by a strict **Death Ratio vs. Business Impact** formula. The government shall not destroy the economic livelihood of the majority to mitigate a statistically insignificant risk.

## 1.3 The Voice of the People

### 1.3.1 The IAP2 Consultation Methodology

We adopt the **International Association for Public Participation (IAP2)** methodology for all major policy decisions. We reject the “Inform” level and commit to “Collaborate” and “Empower,” ensuring binding public input.

# Article 2 NATIONAL SOVEREIGNTY & ECONOMY

---

## 2.1 Taxation & Investment

### 2.1.1 The 17% Competitive Tax Rate

- The Corporate Tax Rate shall be set at a flat **17%**.
- **War Clause:** This rate is constitutionally guaranteed unless Australia is engaged in a defensive war.

### 2.1.2 Multinational Tax Integrity (The Turnover Tax)

We will end the double standard where tradies pay tax but multinationals pay zero. We will introduce a **Turnover Tax** for multinationals to ensure they pay tax on money earned in Australia.

### 2.1.3 The “Reward for Hard Work” Act (Tax-Free Overtime)

We will legislate that **all overtime pay is 100% tax-free**.

### 2.1.4 The \$15 Billion Waste Stop

We shall immediately halt the **\$15 Billion “National Reconstruction Fund”** and redirect monies to paying down National Debt.

### 2.1.5 Wealth Creation Incentives

We shall protect Negative Gearing and Franking Credits, and slash Capital Gains Tax for assets held by Australians for more than three years.

## 2.2 Business & Industry

### 2.2.1 The Singapore Model (Manufacturing)

We will create Special Economic Zones with ultra-low taxes for manufacturing. We will ban the export of raw critical minerals—batteries must be built here.

### 2.2.2 Energy Sovereignty (Nuclear)

We will lift the ban on Nuclear Energy immediately and commit to Small Modular Reactors (SMRs) for cheap, baseload power.

### 2.2.3 Small Business Freedom

- **Slash the BAS:** Move small business to Annual Reporting.
- **Instant Write-Off:** Permanent \$150,000 asset write-off.
- **Deemed Approval:** Permits not processed in 45 days are deemed approved.

### 2.2.4 The “Tools for Tradies” Guarantee

We support the workforce that builds this nation.

- **Tax Deductions:** 100% tax deduction for tools for all apprentices.
- **Start-Up Grant:** A \$5,000 Government Grant for apprentices upon completion of their trade to purchase their own equipment and start their own business.

### 2.2.5 The “Affordable Building Supply Chain” (Cheaper Materials)

We will lower the cost of renovation by lowering the cost of production.

- **Local Manufacturing Zones:** We will designate tax-free zones specifically for the production of sustainable building materials (Glass, Insulation, Timber).
- **“Aussie Made” Bonus:** Government rebates for energy efficiency upgrades will be **Doubled** if the materials used are certified Australian Made.

### 2.2.6 The “Green Shield” Sustainable Living Incentive

We support lowering bills through efficiency, not mandates.

- **Retrofit Rescue Grants:** Direct cash grants (2,000–5,000) for homeowners installing double glazing or insulation.
- **0% Green Loans:** Government-backed interest-free loans up to \$20,000 for energy upgrades.
- **New Build Incentive:** 50% Stamp Duty reduction for new homes achieving 7-Star+ energy ratings.

## 2.3 Cost of Living

### 2.3.1 Immigration Moratorium (Housing First)

We declare a Housing Emergency.

- **The Freeze:** A **5-Year Freeze** on non-essential immigration.
- **Visa Hopping:** Ban on onshore visa switching (Tourist to Student).
- **Biometric Exit:** Strict deportations for overstayers.

### 2.3.2 Housing for Australians

We will ban non-citizens and non-residents from purchasing existing residential property.

### 2.3.3 Corporate Accountability (Anti-Price Gouging)

Fines for price gouging shall be a **percentage of total turnover**. If a corporation profits \$10 million from illegal conduct, the fine shall be at least \$20 million.

### 2.3.4 Cheaper Fuel (Stop the Weekend Spike)

- **No Price Cycling:** Fuel stations shall be banned from price cycling (hiking prices before weekends). Prices must be locked for 24 hours.
- **Excise Cut:** Remove GST from the Fuel Excise (end the tax-on-a-tax).

### 2.3.5 Cheaper Beer

Scrap the federal excise tax on beer.

### 2.3.6 Education Sovereignty (Free Uni)

We will **abolish HECS debt** and return to Free University for citizens, funded by international student levies.

## 2.4 National Service

### MANDATORY SERVICE SCHEME

All Australian school leavers shall be required to complete **12 Months of National Service**. This may be fulfilled via:

- The Australian Defence Force;
- Emergency Services (Police, Fire, Ambulance support);
- Agricultural Support (Farming assistance in rural areas).

# Article 3 LAW, ORDER & JUSTICE

---

## 3.1 Prison Reform

### 3.1.1 The Scandinavian Model

We shall reform the penal system based on **Sweden and Norway**. Prisons shall focus on skills and rehabilitation to turn criminals into taxpayers. *Exception: Violent offenders remain in max security.*

## 3.2 Justice & Safety

### 3.2.1 Youth Justice (Boot Camps)

Mandatory, military-style diversion programs (Boot Camps) for young offenders.

### 3.2.2 The Safe Streets Bail Act

A “Presumption Against Bail” for all violent offenses. Non-citizens convicted of violent crimes or gang activity shall be **deported immediately**.

### 3.2.3 Flag Protection

Desecration of the Australian National Flag shall be punishable by **20 Years Jail** or **Deportation**.

### 3.2.4 The “Real Safety” Funding Initiative

#### FUNDING OUR MENTAL HEALTH

We will **Defund Gun Buybacks** and redirect the allocated **\$15 Billion** directly into funding the **Recovery Sanctuaries** and Mental Health Facilities described in Article 5. We will replace useless firearm confiscations with genuine health support.

### 3.3 Family Law Reform

#### 3.3.1 Financial Integrity Shared Parenting

- **Cashless Settlements:** All divorce settlements must be digital to prevent fraud.
- **50/50 Custody:** Default presumption of shared parenting.
- **Cash-in-Hand Audits:** Rigorous checks to stop income hiding.

### 3.4 Governance

#### 3.4.1 Meritocracy Cabinet of Merit

- **No Quotas:** Abolish DEI mandates; hiring based on Merit.
- **Cabinet:** Ministers must have real-world experience (e.g., Health Minister must be a Doctor).

#### 3.4.2 Political Accountability

Term Limits (max 3 terms) and abolition of the lifelong Parliamentary Pension for new MPs.

#### 3.4.3 Institutional Reform

We will **Defund and Privatis**e the ABC.

# Article 4 FIREARMS & LIBERTIES

---

## 4.1 Evidence-Based Licensing

### MECHANICAL REALITY CHECK

We acknowledge the mechanical reality that **Straight Pull rifles are slower and more cumbersome** than Lever Action rifles.

- Current restrictions based on “appearance” are unscientific and shall be repealed.
- Licensing categories shall be determined by function, not media perception.

#### 4.1.1 The “Fit & Proper” Standard (Enhanced Vetting)

With the restoration of rights comes increased responsibility. We will implement a **Tiered Vetting System**.

- **The Trade-Off:** We restore access to Class C and Suppressors for law-abiding citizens, but we increase scrutiny on those who shouldn’t have them.
- **Domestic Violence:** Automatic lifetime ban for anyone convicted of domestic violence or violent assault.
- **Mental Health:** Mandatory mental health clearance for all license applicants.

#### 4.1.2 Class C Restoration

Restore access to semi-automatic rimfire rifles and shotguns (Class C) for vetted shooters.

Legalise suppressors as mandatory Health & Safety devices.

#### 4.1.4 National Vehicle Standards (End the War on Mods)

We will stop the harassment of vehicle owners.

- **One Nation, One Rule:** We will implement a single National Modification Standard. A vehicle engineered and legal in one state is legal in all.
- **Defect Reform:** Police shall be prohibited from issuing defect notices for minor compliance issues (e.g., tyre poke, mudflaps) that do not pose a direct safety risk. Resources will be redirected to fighting real crime.

# Article 5 WELFARE & SOCIETY

---

## 5.1 Centrelink & Welfare Reform

### THE “CARE NOT CASH” REFORM

We believe in helping people up, not keeping them down with free money.

#### 5.1.1 Abolition of Cash Welfare for Addicts

Centrelink cash payments shall be **abolished** for long-term unemployed individuals with proven addiction issues. Taxpayer money shall not be used to fund drug habits on the street.

#### 5.1.2 Recovery Sanctuaries (Housing the Homeless)

### 5.2.1 Education: “Back to Basics”

We will remove political ideology from the classroom.

- **Curriculum:** A return to Reading, Writing, Arithmetic, and factual Australian History.
- **No Activism:** Schools are for education, not social activism.

We will look after those who served.

- **Liability First:** If a veteran claims an injury, the DVA must accept liability immediately and pay for treatment *first*. Investigations can happen later.
- **Gold Card:** Automatic Gold Card access for all veterans with qualifying service.

## 5.3 Environment Public Land

### 5.3.1 The “Unlock the Bush” Act (Access Freedom)

- **Right to Roam:** We will legislate a national Right to Access all National Parks and State Forests for sustainable recreation, including camping, fishing, 4WDing, and hunting.
- **Free Camping:** We will abolish camping fees in State Forests.

We will upgrade illegal dumping from a council fine to a serious crime.

### 5.3.6 Water Sovereignty

Ban foreign ownership of water rights.

## 5.4 Foreign Relations

We shall adopt a stance of Armed Neutrality. We will revisit our alliance with the USA only when their political environment stabilizes.
